For your safety	2
WARNING	2
CAUTION	3
Important safety instructions	3
Other Important Information	4

- Thank you for purchasing a Panasonic product.
- Please read this Safety Guide carefully before installing the unit.
- Detailed instructions are supplied with the unit.
- Save the original carton and packing materials for future shipping and transportation of the unit.

For your safety

To prevent severe injury and loss of life/property, read this section carefully before using the unit to ensure proper and safe operation of your unit.

- When you operate this product, the power outlet should be near the product and easily accessible.
- Telephone line cord is supplied. Be sure to use the telephone line cord supplied with this unit (fax supported models only).
- Do not extend the telephone line cord (fax supported models only).

WARNING

Power and ground connection

- Unplug this unit from the power outlets if it emits smoke, an abnormal smell or makes unusual noise. These conditions can cause fire or electric shock. Confirm that the smoke has stopped and contact an authorised service centre.
- Use only the power source marked on the unit. If you are not sure of the type of power supplied to your home, consult your retailer/dealer or local power company.
- For safety purposes this unit is equipped with a grounded plug. If you do not have this type of outlet, please have one installed. Do not ignore this safety feature by tampering with the plug.
- Do not place objects on the power cord. Install the unit where no one can step or trip on the cord.
- Do not overload power outlets and extension cords. This can result in the risk of fire or electric shock.
- Completely insert the power plug into the power outlet. Failure to do so may cause electric shock and/or excessive heat resulting in a fire.
- Regularly remove any dust, etc. from the power plug by pulling it from the power outlet, then wiping with a dry cloth. Accumulated dust may cause an insulation defect from moisture, etc. resulting in a fire.
- Never touch the power plug with wet hands. There is a danger of electric shock.

Installation

- Place the unit securely on a stable, level surface. Serious damage and/or injury may result if the unit falls.
- To prevent the risk of fire or electrical shock, do not expose this product to rain or any type of moisture.
- Use this unit in a well ventilated area. Particularly, if you will be using the unit for extended periods of time or will be printing in large volumes, be sure to ventilate the room sufficiently.
- Do not use this unit in places where the unit is subject to direct air from air-conditioners, ventilators etc. The inside of the unit may become too warm, and cause the unit to deform.

Operating safeguards

- Turn the power OFF before cleaning. Do not use liquid or aerosol cleaners.
- Do not cover slots and openings on the unit. They are provided for ventilation and protection against overheating. Never place the unit near radiators, or in a place where proper ventilation is not provided.
- Never push any objects through slots in this unit. This may result in the risk of fire or electric shock. Never spill any liquid on the unit.
- To reduce the risk of electric shock, do not disassemble this unit. Take the unit to an authorised service centre when service is required. Opening or removing covers may expose you to dangerous voltage or other risks. Incorrect reassembly can cause electric shock when the unit is subsequently used.
- Follow all warnings and instructions marked on this unit.
- Do not spill liquids (detergents, cleansers, etc.) onto the telephone line cord plug, or allow it to become wet at all. This may cause a fire. If the telephone line cord plug becomes wet, immediately pull it from the telephone wall socket, and do not use (fax supported models only).
- Unplug this unit from power outlets and refer servicing to an authorised service centre when any of the following conditions occur:
 - If the power cord is damaged or frayed.
 - If the unit has been exposed to rain or water, or liquid has been spilled into the unit. Do not use a microwave oven to speed up the drying process of any parts of the unit to avoid permanent damage.
 - If the unit does not work normally by following the operating instructions. Adjust only controls covered by the operating instructions. Improper adjustment may require extensive work by an authorised service centre.
 - If the unit has been dropped or physically damaged.
 - If the unit exhibits a distinct change in performance.

USB cable/LAN cable/USB memory

- To assure continued emission limit compliance:
 - use only shielded Type-A male/Type-B male USB cable (Example: Hi-Speed USB 2.0 certified cable).
 - use only shielded LAN cable (supported models only).
 - use only USB memory that complies with EMC standards (Example: CE, FCC) (supported models only).

Wireless LAN (supported models only)

- Operating near 2.4 GHz electrical appliances may cause interference. Move away from the electrical appliances. This equipment must be installed and operated in accordance with provided instructions and a minimum 20 cm spacing must be provided between antenna and all person's body (excluding extremities of hands, wrist and feet) during wireless modes of operation.
- Consult the manufacturer of any personal medical devices, such as pacemakers or hearing aids, to determine if they are adequately shielded from external RF (radio frequency) energy. (The product operates in the frequency range of 2.412 GHz to 2.472 GHz.)
- Do not use the product in health care facilities if any regulations posted in the area instruct you not to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

CAUTION

Installation and relocation

- After moving the unit from cold areas to warmer areas, wait approximately 30 minutes before turning on the power switch to allow the unit to adjust to the ambient temperature. If the power switch is turned on too soon after a sudden climate change, condensation may form inside the unit, causing malfunction.
- Never turn the unit upside down or sideways when moving it.
- Never install telephone wiring during a lightning storm (fax supported models only).
- Never install telephone sockets in wet locations unless the socket is specifically designed for wet locations (fax supported models only).
- Never touch uninsulated telephone wires or terminals unless the telephone line has been disconnected at the network interface (fax supported models only).
- Use caution when installing or modifying telephone lines (fax supported models only).
- Do not position the unit in a location where it is unstable or subject to vibrations.
- The unit is heavy. It is highly recommended that two people handle this unit. When moving the unit, hold both of the side grips. Ensure the unit is stable when moving it, serious damage and/or injury may result from the unit falling.
- Do not carry the lower input tray and the unit together (only for models that support the lower input tray). You can detach the unit from the lower input tray. Carry the unit and lower input tray separately.

Laser radiation

CLASS 1 LASER PRODUCT

- The printer of this unit utilises a laser. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure. See the operating instructions for the Laser diodes properties.

LED light

CLASS 1 LED PRODUCT

- When using the unit, do not look directly at the CIS's LED light. Direct eye exposure can cause eye damage. See the operating instructions where the CIS LED specifications are listed.

Recording paper exit rollers and fuser unit

- During or immediately after printing, near the recording paper exit roller shaft and fuser unit gets hot. This is normal. Do not touch it.
- The area near the rear cover may also get warm. This is normal.

Toner cartridge

- Avoid ingestion, inhalation, eye or skin contact.
 - If ingestion occurs, drink several glasses of water to dilute stomach contents.
 - If inhalation occurs, exit the area immediately into an area with fresh air.
 - If skin contact occurs, wash thoroughly with soap and cold water, then air dry. Do not use hot water or hair dryer.
 - If eye contact occurs, flush thoroughly with water.
 - In all cases, seek medical treatment if adverse symptoms occur.

Important safety instructions

When using this unit, basic safety precautions should always be followed to reduce the risk of fire, electric shock, or personal injury.

- Do not use this unit near water, for example near a bathtub, wash bowl, kitchen sink, etc.
- During thunderstorms, avoid using telephones except cordless types. There may be a remote risk of an electric shock from lightning (fax supported models only).
- Do not use the telephone of this unit (if so equipped) to report a gas leak, when in the vicinity of the leak (fax supported models only).

SAVE THESE INSTRUCTIONS

Other Important Information

Disposal of Old Equipment and Batteries Only for European Union and countries with recycling systems

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries must not be mixed with general household waste.

For proper treatment, recovery and recycling of old products and batteries, please take them to applicable collection points in accordance with your national legislation.

By disposing of them correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment.

For more information about collection and recycling, please contact your local municipality. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

Note for the battery symbol

This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Ecodesign information

Ecodesign information under EU Regulation (EC) No.1275/2008 amended by (EU) Regulation No. 801/2013. From 1 January 2015.
