HAVIS DOCKING STATION SOLUTIONS

Rugged docking stations for demanding TOUGHBOOK environments

The Havis legacy dates back over 80 years as a trusted designer, manufacturer, and provider of mission critical equipment. With over three decades of supporting Panasonic in the demanding public safety sector, Havis has evolved to include a complete line of products that maximize mobile productivity in any environment, with rugged but comfortable solutions that are built to the highest safety and quality standards.

The Havis product line features docking stations for most Panasonic TOUGHBOOK devices, as well as vehicle mounts, consoles, idle reduction systems, power management solutions, and more. Our lightweight and rugged docking stations are rigorously tested to Panasonic's TOUGHBOOK criteria, which helps put Havis at the forefront of product innovation.

Havis TOUGHBOOK 20 Laptop Docking Station
Havis TOUGHBOOK 33 Tablet Docking Station

TOUGHBOOK G1

The Havis DS-PAN-700 Series of docking stations offers a TOUGHBOOK certified solution for TOUGHBOOK G1 tablet users. The low-profile design maximizes the available space inside of a vehicle, and its rounded corners and edges are ideal for occupant safety in accidents or airbag deployments. It features a VESA-75 hole pattern for convenient mounting, full port replication with integrated strain relieving, and a lockable handle for peace of mind.

TOUGHBOOK 33

Havis is pleased to offer an ultra-rugged and lightweight solution for Panasonic TOUGHBOOK 33 tablet and laptop users. Our TOUGHBOOK approved DS-PAN-1200 (tablet) and DS-PAN-1100 (laptop) docking stations permit easy access to the tablet, as well as convenient usage when paired with a Panasonic keyboard. Havis TOUGHBOOK 33 solutions feature VESA 75 mounting provisions, a variety of port replication options for connectivity to peripherals, and our usual safe and secure docking experience. Additionally, our tablet docks support hand strap and high-capacity battery users.

TOUGHBOOK 54

Panasonic's TOUGHBOOK 54 laptop is supported by Havis' fully-rugged line of DS-PAN-420 docking stations. This TOUGHBOOK certified solution accommodates all TOUGHBOOK 54 models and features a lightweight, durable and low-profile design that provides access to the computer's smart card reader even while the computer is docked. With full port replication, integrated strain relieving, and a lockable mechanism for theft deterrence, Havis has a DS-PAN-420 solution for any TOUGHBOOK 54 application.

TOUGHBOOK B2 / TOUGHBOOK M1

With one design for two platforms, the Havis DS-PAN-900 Series is a TOUGHBOOK certified solution for both TOUGHBOOK B2 and TOUGHBOOK M1 applications. Featuring two port replication offerings, there's an advanced option for TOUGHBOOK M1 users, and a basic version that supports less demanding TOUGHBOOK M1 applications as well as the unique needs of the TOUGHBOOK B2's Android OS. Rugged, lightweight and low profile, the Havis DS-PAN-900 series offer a safe and secure docking experience that features a VESA 75 mounting pattern and compatibility with Panasonic's standard hand strap (FZ-VSTM11U).
